

# WITCH-KICKS

52" x 62"

By Glenda Wilder

This quilt is a fast, fun seasonal throw with a “kick” using a few of your scraps and some fun fall fabrics. Featuring pointy paper-pieced witch hats and appliqued boots using the template from my ‘Just Kickin’ It’ pattern (required) it’s a terrific weekend project!

Shops may use this pattern for project kits utilizing the seasonal fabric they have chosen to carry, offering customers the opportunity to create a limited edition quilt exclusive to their shop inventory.

I encourage you to read through the directions before cutting and to lay out the completed blocks before assembling the quilt top.

Happy Quilting!  
Glenda

## FABRIC REQUIREMENTS & CUTTING DIRECTIONS

The chart below indicates fabric requirements and the cutting directions. Separate the various pieces by letter/size and color for easy assembly.

FABRIC REQUIREMENTS		CUTTING DIRECTIONS
Fabric A	1/2 Yard	8) 8.5" x 10.5" rectangles
Fabric B	3/4 Yard	5) 8.5" x 10.5" rectangles (boots get appliqued on 4 pcs)  Remaining fabric B is used in FBB/Witch Hats as background pieces A1, A3, C1, D1, D1, E3, F1 and G1
Fabric C	1/4 Yard	4) 8.5" x 10.5" rectangles
Fabric D	1/4 Yard	3) 8.5" x 10.5" rectangles
Fabric E	1/2 Yard	2) 8.5" x 10.5" rectangles  Cut 2" strips to use as inside borders. Measure lengths needed after construction in order to make border accurate and quilt lay flat
Fabric F	3/4 Yard for Outside Border	Cut 4 1/2" strips. Measure lengths needed after construction in order to make border accurate and quilt lay flat
Assorted scraps for boot applique		4) 5" x 7" or larger for main boot motif 8) 2.5" x 6" or larger for seamed boot upper
Assorted scraps for witch hats		
Paper backed fusible for boot appliques		

## **BOOT BLOCK**

Using your “Just Kickin’ It” pattern and choice of scraps 4) 4.5” x 7” or larger for main boot motif and 8) 2.5” x 6” or larger for seamed boot upper, sew smaller scraps together to make 4) 2-piece units. Apply fusible to wrong side of fabric. Trace and cut out motif shapes. Place boot upper on main boot, remove paper and fuse. Place completed boot applique piece on fabric block, center, remove paper and fuse in place. Using your favorite stitch (my favorite is blanket stitch) secure raw edges. Consider making some facing each direction for added interest.

## **WITCH HAT BLOCKS**

Use the foundation paper piecing template provided to create your witch block hats using B-fabric and assorted scraps.

## **ASSEMBLY**

Lay out your quilt according to the diagram. Stitch blocks together using  $\frac{1}{4}$ ” seams to create rows. Then stitch rows together, pinning and nesting corners to create good, distinctive intersections.

## **BORDERS**

For both the inside 2” border and outside 4.5” border: Measure 2) horizontal sides. Find the average and cut 2) strips. Pin ends and center and ease border to fit both sides. Repeat the measure, average, pin and ease assembly for the vertical edges. This method ensures a square quilt that lays flat with no puckering or bunching due to irregularly sized edges.

## **FINISHING**

Press, sandwich and quilt as desired. Bind using your favorite width fabric strips in a fabric of your choice. For easy bias binding, download my free instructions from [www.glendawilderdesigns.com](http://www.glendawilderdesigns.com)

*Sample shown features selections from “Too Cute to Spook” fabric collection from Me & My Sister Designs for Moda Fabrics, “Decadent” Grunge Basics by BasicGrey for Moda Fabrics and Hocus Pocus by Kim Schaefer for Andover Fabrics.*
